STATISTICAL REPORT

of Seventh-day Adventist® Conferences, Missions, and Institutions throughout the world for the year ending December 31, 2017

ABOUT THIS REPORT: Looking Deeper

About this Edition of the ASR. This is the 155th annual report of Seventh-day Adventist statistics. It reports institutional, financial, and personnel statistics as of December 31, 2017. The report includes charts illustrating key statistics and statistical trends (p. 10), as well as the color map of the 10/40 Window (p. 72), which continues to be a key priority for the Adventist Church.

Publication arrangements for the ASR are changing in response to requests from users around the world to have statistics for just one calendar year in each edition of the ASR. The edition you are reading now provides institutional, employee, departmental, and world mission statistics for 2017. End-of-2018 membership and congregational statistics have already been published in electronic form, in an Advance Release that was made available earlier this year as a PDF (available to download at www.adventiststatistics.org).

The end of 2019 will see the beginning of a new series inaugurated by a volume of the ASR containing all statistics for the calendar year 2018; it will include the statistics released in digital form in the Advance Release, which will thus be repeated but now alongside all other 2018 statistics for completeness, while they will also thus be available in printed form as well as PDF. In 2020 membership and congregational statistics for 2019 will again be released as soon as they are available, published as an electronic-only “advance release.” The entirety of the 2019 statistics will then be published in a single hardcopy edition by the end of 2020.

This year will thus see the publication of two ASRs in order to facilitate the transition to the new one volume per calendar year approach. In a sense this is a return to the older pre-2013 mode of publication, but with the new approach (including advance release in digital form of statistics on membership and congregations as soon as they are available) it means that each year’s statistics will be available much sooner than was the case before 2013. We appreciate the feedback of those who use the *Annual Statistical Report* around the world in helping us improve our service.

Adventist Mortality. It has been frequently mentioned in the ASR prefaces how mortality rates—the number of deaths per thousand people in a population—are a useful indicator of the accuracy of membership reports, but that is not all they communicate. Charts 1 and 2 show the 20 countries with the lowest and highest reported Adventist mortality rates, respectively. The countries and divisions with the lowest reported death rates exemplify the need for frequent and rigorous auditing, as unreported membership deaths, the only possible conclusion when no deaths are reported among a general population death rate of 3-11 per thousand, quickly build into substantial inaccuracies in membership figures.

The highest reported death rates, on the other hand, are hardly likely to be underreported, and there is no conceivable incentive to overreport. If taken, then, as an accurate portrayal of membership in those countries and divisions, the highest death rates could leave one scrambling for a dramatic explanation for the dramatic figures such as war, famine, or disease. The reality is simpler: the membership in these countries is old. And as they die they are not being replaced by a younger membership at a sufficient rate to sustain the church in these areas, much less grow it. Mortality rates thus offer insights not only into the inaccuracy of many areas’ membership statistics but also into the demographics of the church in certain regions.

Languages. One of the oldest tables in the ASR is Table 32, Languages and Dialects in Which SDA Publications are Now in Print. When changes to its formatting were being considered recently, it was realized that a number of countries where the Adventist Church is active had no data in this table and that some data seemed doubtful. To improve the accuracy and completeness of these data, a new reporting system was initiated which listed all languages with more than 200,000 speakers in each division’s territory. For each language, respondents were to indicate whether it was used in print, used orally, and/or heard in broadcasts reaching their territory. Results thus far have been mixed; there are now even more countries with no report, but the data which has come in is far more thorough. As part of the new format, the count of languages used orally is now separated from the count of languages in print, making it appear lower than previous years until the separation of components is noticed. It is hoped that within the next year the missing countries will have reported in so that this can be a truly accurate and useful table.

Healthcare Report. Regrettably, no healthcare report for 2017 can be included in this edition of the ASR. No report was received by the deadline, nor indeed during the 10 months of grace extended after that deadline. A listing and count of hospitals and sanitariums reported in 2016 has been repeated in its place. We hope that at some point in the near future health statistics will be collected and transmitted to the world headquarters; if and when that happens, a full report will be included in the ASR.

GLOBAL MISSION

The Church's Presence, Outreach, and Mission

Challenge of Global Mission.—The Global Mission document voted at the 1989 Annual Council and endorsed at the 1990 General Conference Session seeks to create an awareness, in concrete measurable terms, of what the gospel commission means to the church today.

Monitoring Global Advance.—Table 1 below lists major unentered regions of the world according to conferences or missions rather than by countries. It is based on a challenge of Global Mission: to place a church among each one million of earth's population. To locate regions where the ratio of churches to population is less than 1:1,000,000, we have used the *2018 Seventh-day Adventist Yearbook* to find those conferences or missions with low church-to-population ratios. For example, in the Northern India Union Section of the Southern Asia Division the Chhattisgarh Region has a population of 28.5 million and ten churches. Therefore, on average, each church serves a population of 2.9 million people. Progress is indicated in the fact that in 2001, when this field was organized, each church served an average of 6.9 million people.

This view of the global challenge shows in which conferences or missions the great challenges lie in relation to the Adventist "presence." (For a definition of "presence" see "Definitions" in the next column.)

A column is provided to show the "Population Estimate (Millions) Per Church 1990 or When Organized" for comparison. The basis for these entries is the *1991 Seventh-day Adventist Yearbook* or the *Yearbook* representing the year of the field's organization after 1990. In some cases the 2017 ratio is larger than the earlier ratio. This may be due to a population that is growing more rapidly than the church or to official revisions in population estimates, rather than to a loss of churches. In some cases the fields that existed in 1990 no longer exist by the same name or territory so a direct comparison is impossible. In other cases growth of churches has lowered the ratio below 1.0. These are being eliminated year by year as church growth occurs. This occurred this year when the Greek Mission of the Trans-European Division established its 11th church in a country with a population of 10.7 million people.

The number of churches is taken from the 2018 edition of the *Annual Statistical Report*; population statistics are for mid-2017 and estimates are provided by the Population Reference Bureau of Washington, DC.*

Some countries with a population of one million or more yet with little or no Seventh-day Adventist organizational structure are shown in parentheses.

Table 2 lists all countries and some areas of the world and shows church-planting activity and general growth, including the number of ordained ministers, churches, companies, and members, for each country.

Although isolated Sabbath keepers or Seventh-day Adventists from other countries are known to reside in some countries where there is no organized church, the data here corresponds to official reports from the divisions.

The "Ordained Ministers" column excludes those who serve in administrative positions at the union and division levels.

Definitions.—Officially, what is a "country or area of the world?" For the purposes of this report, it is a separate political or geographical entity. Because the Seventh-day Adventist Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in the list or the absence of others. The countries and areas shown in the accompanying Global Mission tables are taken from the United Nations Statistics Division, Standard Country and Area Codes Classifications (M49) list, excluding areas without political autonomy or permanent populations.

"Presence" means the existence within the territory of an organized church.

"Established work" exists in a country or area of the world when one or more of the following criteria have been met: (1) when an organized church meets regularly; (2) when a mission station, healthcare facility, or school is functioning regularly; or (3) when a regular full-time denominational employee is based in the country or area carrying on outreach or soul-winning activities through such units as a Sabbath school, an organized company, or a language school. Seventh-day Adventist work is not considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbath keepers, employees traveling through, or temporary service by regular employees, student missionaries, or other volunteer employees. Countries or areas where the church does not have established work are listed in a half-page table on page 67.

The "number of countries and areas of the world" is derived from the United Nations M49 list downloaded September 28, 2017, less the areas excluded for the reasons mentioned above. This makes our count 235.

Symbols Used in Table 2:

- + Improvement, but percentage calculation is impossible because the beginning figure is zero.
- Decrease in growth.
- () Negative number.

GLOBAL MISSION

(GM) Table 3

10/40 Window

Matthew 24:14: "And this gospel of the kingdom will be preached in the whole world as a testimony to all nations, and then the end will come." NIV

The 10/40 Window describes a rectangular-shaped region of the world map in the eastern hemisphere between the 10 and 40 northern lines of latitude, which includes North Africa, the Middle East, and Asia, where more than 60% of the world's population live. This region is home to some of the largest people groups who do not have access to the Gospel message. The majority of the world's least evangelized countries and a great number of the poor are within the 10/40 Window. It contains three of the world's dominant religions: Islam, Hinduism, and Buddhism, plus the non-religious. Much of this region also has Biblical and historical significance.

 Note 3—Total General Employees column does not include credentialed and licensed literature evangelists.

Note 2—As of 2008, 'Unions of Churches' are being counted as unions, no longer as local conferences.
 Note 4—As of 2014, credentialed employee counts include both full-time and some part-time credentialed employees.
